PROFESSIONAL SUMMARY

Computer Science student (GPA 3.0/4.0) and NTI-trained front-end developer who has built 3 responsive websites with HTML, CSS, JavaScript, and Bootstrap, including converting Figma designs into working interfaces. Led a team of 6 members to deliver a 6 page website and finished 120 hours of web design training with a final score of 97.5. Seeking a front-end or web development internship.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, Python, Java, C, SQL

Front-End: Front-End Development, Web Design, Bootstrap, Responsive Web Design, Figma-to-Code, UI Implementation, Landing Pages, Reusable Components

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Full-Stack Development, Version Control (Git), Web Development

Tools: Git, GitHub, Visual Studio Code, Figma, Notion

Soft Skills: Team Leadership, Collaboration, Problem Solving, Communication, Time Management, Adaptability, Critical Thinking

EXPERIENCE

Web Design Trainee | National Telecommunication Institute (NTI), Egypt Aug 2026 – Sep 2026

- Completed 120 hours of training within 4 weeks: 90 hours of front-end development (HTML, CSS, JavaScript, Bootstrap, responsive design) and 30 hours of freelancing and client project delivery.
- Achieved a final training score of 97.5 across the 120 hours of training.
- Led a team of 6 members in the final project, coordinating development tasks and delivering 1 complete website with 6 pages (GleanCraft).

PROJECTS

GleanCraft | HTML, CSS, JavaScript, Bootstrap 2026

- Led a team of 6 members to build a responsive dental services website with 6 pages: 1 homepage, 4 clinic pages, and 1 registration page.
- Designed and implemented 2 of the 6 pages (homepage and sign-up page), turning project requirements into structured, responsive interfaces.
- Integrated reusable UI components across all 6 pages to keep design and navigation consistent.

EcoScrap | HTML, CSS, Figma 2026

- Developed 1 responsive recycling services landing page that helps users find suitable waste recycling services in their area.
- Converted 1 Figma design into a functional interface, matching layouts and visual elements across screen sizes.

Hutly | HTML, CSS, Figma 2026

- Built 1 real estate landing page from scratch with clear content hierarchy, visual consistency, and intuitive navigation.
- Translated a Figma design into a responsive front-end implementation that keeps the intended structure on all screen sizes.

EDUCATION

Bachelor of Computer Science | Capital University, Giza, Egypt 2025 – 2029 (Expected)

- GPA: 3.0/4.0. Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Development.

CERTIFICATIONS

- CS50x – Harvard University
- Git & GitHub – Google
- Web Development Basics – IBM
- Web Design Training – National Telecommunication Institute (NTI)
